

DIRECT BURY WATERPROOF

FEATURES

- ✓ UL Listed 600V for dry, wet or above/below grade applications when used in an enclosure
- ✓ For use in Direct Bury applications when operating at 30V or less
- ✓ Temperature Rating: 105°C (221°F)
- ✓ Silicone Sealant: -45°F to 400°F
- ✓ Designed for tracer splices and cathodic applications

KRIS-TECH CONNECTORS

Kris-Tech Insulation Displacement Connectors are used to install service lines without cutting the mainline. Waterproof and corrosion-proof, they install in one minute or less with no hand tools required.

PRODUCT SPECIFICATIONS & MEASUREMENTS

Max. Voltage	600V max. building wire (1000V max. signs or luminaires)
Connector Size	2" x 13/16"
Wire Type	Copper/Copper
Wire Range	Min #22/Max #8
Temperature Rating	105°C (221°F)
Silicone Sealant	-45°F to 400°F
UL Designation	MDB
