

FEATURES

- ✓ UL Listed 600V for dry, wet or above/below grade applications when used in an enclosure
- ✓ For use in Direct Bury applications when operating at 30V or less
- ✓ Pre-filled with dielectric silicone sealant that never hardens
- ✓ Waterproof and corrosion proof
- ✓ Easy latch lid provides strain relief
- ✓ One piece for easy installation
- ✓ Silicone Sealant Temperature: -45°F to 400°F
- ✓ Designed for tracer splices and cathodic applications

KRIS-TECH CONNECTORS

Kris-Tech Insulation Displacement Connectors are used to install service lines without cutting the mainline. Waterproof and corrosion-proof, they install in one minute or less with no hand tools required.

PRODUCT SPECIFICATIONS & MEASUREMENTS

Max. Voltage	600V
Connector Size	1.75" x 2.28"
Wire Type	Copper/Copper
Wire Range	Min #22/Max #6
Silicone Sealant	-45°F to 400°F
UL Designation	MSR
