

## SPLIT BOLT HOUSING

### FEATURES

- ✓ Designed for low voltage tracer splices and cathodic applications up to 50V
- ✓ Use for making tap or branch splices
- ✓ Pre-filled with a non-toxic SmartGel™ that eliminates hazmat requirements
- ✓ Waterproof and corrosion proof
- ✓ Eliminates the need for time consuming, multi-step products such as heat shrinks, primers, tapes and epoxy packs
- ✓ Installs in one minute or less
- ✓ For use in outdoor or direct-burial locations

### KRIS-TECH CONNECTORS

Kris-Tech Insulation Displacement Connectors are used to install service lines without cutting the mainline. Waterproof and corrosion-proof, they install in one minute or less with no hand tools required.

### PRODUCT SPECIFICATIONS & MEASUREMENTS

Max. Voltage	50V
Connector Size	1.6" deep x 2.9" wide x 1" tall
Wire Range	#14-10 Solid Copper
	#14-10 Steel Core Tracer Wire
Housing	High impact polypropylene
Silicone Sealant Temperature Rating	-50°C to 200°C (-58°F to 392°F)
Sealant	Dielectric silicone gel
